Response to Amendment

1. Responsive to amendment received on June 18, 2004, amendment to claims 1 and 18 entered as requested.

Reasons for Allowance

2. Claims 1-25 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

Present invention is concerned with reducing overhead traffic in providing routing information for forwarding packets with a distributed router.

The closest prior art of record, Dobbins (US 5,509,123) discloses route computation engines obtaining registration information from the internal forwarding tables. However, Dobbins either singularly or in combination with Pitcher (US 6,370,142) fails to obviate the amended limitations "obtaining registration information from a plurality of forwarding engines at a route computation engine", therefore, rendering all the independent claims 1, 12 and 18, having the underlined limitation as amended, allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2667
